Dear Ming:

My board members would like to request an appointment to revisit the current street sweeping schedule for the Hollywood Media District BID. As you may be aware there are numerous streets with "Street Sweeping" signage which translates to no parking. The Business Improvement District is parking challenged and would like to explore the opportunity of adjusting some of the street sweeping routes. I understand that the "yard" is located on Romaine where the sweeping trucks begin their day. I have attached a map in which one of our board members prepared with a possible route adjustment where there is only commercial properties located. **The goal is to free up street parking during business hours** - so if we can work together to change the routes to early in the morning (basically anytime between midnight and 6am and any day of the week that works) that would be great.

Take a look at the attached map and let me know if this is possible.

Thank you in advance for your time and consideration.

Regards,

Lisa Schechter
